

Easynet Global Services Listed in Sunday Times Top Track 250

London, 17 October, 2011 – Easynet Global Services today announced that it has been ranked 163rd in The Sunday Times' Top Track 250 index of the fastest growing privately owned mid-market companies in Britain.

Easynet has delivered year-on-year growth since its inception in 1994 by providing intelligent global managed solutions to multinational organisations. The past 12 months have seen Easynet sign a variety of € multi-million managed hosting, network and video conferencing contracts with companies like Campofrio Food Group and Credit Foncier de France; launch an innovative new hosted voice product; build on its broadcast networking expertise with Perform Media and Sky News HD among others; continue the success of its Professional Services consultancy offering; and work with its customers to make their cloud computing strategies deliver real returns.

The seventh annual Top Track 250 is compiled by Fast Track and published in The Sunday Times each October. The league table ranks the 250 next biggest private companies, provided either sales or operating profits have increased in their latest available accounts.

Of the company's listing in the Top Track 250, David Rowe, CEO, Easynet Global Services said: "We're thrilled to be listed in Top Track for 2011. Our growth has been fuelled by listening to our customers and responding with added flexibility, customer closeness and quality services in a rapidly changing technology environment."

The 2011 Top Track 250 league table can be viewed here:
